Product **Health & Safety Data Sheet**

9.0 Physical and Chemical Properties

Appearance:	Yellow powder / granules
Odour:	Maize
Flash Point:	Not determined
Ignition Temperature:	Not Determined
Explosion Limits:	Not Determined
Density:	5000 / 650 grams per litre
PH Value:	Not Determined
Moisture:	15%

10.0 Stability and Reactivity

There is the possibility of a dust explosion so avoid excessive temperature, flame or other sources of ignition

11.0 Toxicological Information

According to the information we have, Maize Granules are non-injurious to health. However, inhalation of dust should be avoided. Safe for human ingestion.
